ENGLAND AGAIN SCENE OF RAID

Damage And Loss Of Life From German Air Attack Is Not Great

SUBMARINES BUSY AS USUAL

Week End Activity Results In Sinking Of Ten Vessels; Plans For Offensive

LONDON, June 5.—Another German air raid on the coasts of England last night, coupled with the recent week end activity of German submarines are the war developments of the last twelve hours which are today holding public attention. Discussion of the fall of Przemysl has been laid aside for matters nearer home.

Little is known as yet of the extent of the aerial attack, but it does not seem to have done much damage or been costly to lives.

German submarines have been very busy during the last few days in the North sea and in the British channel. Ten vessels have been attacked in the last three days without loss of life except in the case of the trawler Victoria, four members of the crew of which were killed and a passenger having fallen victim to shells fired by the attacking submarine.

The biggest capture of the Germans was the 5,000-ton Liverpool steamer Tinkum. Another important victim was the Carn River long, erroneously reported at first as the Wilson. The other ships sent to the bottom by the Germans include in addition to several trawlers, four neutral ships, two Danish, one Norwegian and one Swedish.

The Austrian forces have forced their salient as far as Turkika, which is some distance northeast of Przemysl. Notwithstanding the evacuation of this fortress, the Russians have maintained an unbroken fighting front on both sides of the railroad to Leuberg. Thus far the Austrians and Germans apparently have made little progress since the taking of Przemysl, although an Austrian official report states that the Russians have been driven east of the vicinity of Medska.

British and French reports indicate hard fighting on the western front, without progress for either side. The Belgian front has again been closed to traffic. This tends to confirm reports that the Germans are moving heavy reinforcements to their positions along the Yser canal.

ON THE RIGHT SIDE

City's Finances for Month of April Show Up Well Owing to Tax Collections of \$29,000

OKLAHOMA CITY was quite a prosperous business institution during the month of April. Business was so good that by the end of the month the city found itself just \$52,834.01 richer than it was the month before.

According to the monthly financial statement just issued the total receipts by the city from various sources were \$96,084.25, and the total expenditures \$43,852.29, leaving the above balance as a profit.

The receipts were boosted considerably by \$79,442.91 received as taxes.

HIS NAME WITHELD

Prominent Lawyer Seeks to Head Off Secret Marriage and For Various Reasons Is Not Named Here

One of the prominent lawyers of Oklahoma City went hurriedly into the county clerk's office this morning and asked Miss Hoover, the marriage license clerk.

"Did my 19-year-old boy apply here for a marriage license today?"

He was told that the boy had not asked for the paper and appeared to be much relieved.

"If he asks for it," he said, "don't let him have it."

"Neighbors of the attorney know of the love affair in which the youth is one of the principals and have been watching it with considerable interest."

RARE ASSORTMENT OF POISON FUMES BUT NO FATALITY

Many bottles of poison were in evidence when Motor Patrolman Ollie Estes answered a hasty call at the home of Mrs. W. M. Hollingsworth on North Francis avenue this morning on a report that Mrs. Hollingsworth had attempted to commit suicide. The air was reeking with fumes of poisonous drugs, according to the report of the officer, but emergency treatment quickly brought the woman to, and no ambulance was called. It is said that domestic difficulty was the cause of the trouble.

PUT FELLOW PRISONERS ON STAND AGAINST PEARCE

Prisoners from the county jail were placed on the stand in Judge Haywood's court today to testify against E. F. Pearce, on trial charged with having obtained \$110 from the State National Bank by means of a forged telegram, but they were not damaging to the defendant.

One prisoner said he had heard W. J. Maynard, who was also under arrest, ask Pearce why he was in jail. There was some further conversation between the two prisoners, but the witness said he could not recall it.

INDIAN WILL PREACH

Attache of Washington Bureau of Missions Will Occupy Pulpit Tomorrow Morning at St. Joseph's

A full blooded Indian, brought here by Rev. William H. Ketchum, secretary of the Bureau of Indian Missions at Washington, will speak at high noon tomorrow morning at 10 o'clock at St. Joseph's cathedral. His name is Phillip D. Gordon and he has come to Oklahoma to stay, having been assigned to mission work in the east part of the state. Gordon's sermon tomorrow is anticipated with a great deal of interest as his manner of viewing things is different. His command of English is said to be excellent.

Rev. William Ketchum is visiting A. Ketchum on West Ninth street. Gordon is his guest.

TAKE OUT FOR THE WRAPPER

Highly Will Investigate Charge For Paper That Goes Along With Provisions That Comes in Packages

Hereafter butchers and grocers in Oklahoma City will pay for bacon and ham only, and not for the heavy paper which comes with it. If the campaign being started by the department of public safety proves effective, P. E. Douthett, inspector of weights and measures, will in consultation with the city attorney, concerning the matter today, said P. E. Douthett, thought probable that steps can be taken to prevent the packing houses from selling heavily wrapped meats by the retail men without making allowance for the covering.

"We expect a fight, of course," declared Commissioner J. T. Higley this morning. "When paper is bought at the rate of two cents a pound, and then sold for 25 cents a pound, and then made of pieces of meat are sold here every week covered with this excessive wrapping, the merchants must pay a great deal of money out for things they don't get, and they turn the housewife must add her mite in really buying bacon and getting paper. We intend to have people in Oklahoma City buy meat when they want it, and not paper."

A crusade will also be started following the outcome of the meat question for the contents of butter and other creams to be sold at their net weight.

CRUCE IS ASKED ABOUT BROTHER

Said, However, That He Did Not Know Whether or Not A. C. Had Been Retained by Tulsa Race Promoter

Former Governor Cruce on the witness stand in the district court today gave the details of events that led up to the closing of the Tulsa race on April 1914 for which he is now being sued for damages by R. J. Allison. He said complaints had been made to him that betting was being permitted and after the races started he was told that betting was permitted.

The witness was asked if he knew that his brother A. C. Cruce of this city had been employed as attorney by Allison to find out if betting on the races could be permitted. The former governor said he did not remember having heard that his brother was Allison's attorney.

Numerous witnesses have testified to details of the affair when the races were stopped. Adjutant General Cannon, who is a defendant in the suit, will follow ex-governor Cruce on the stand.

ROCKEFELLER MONEY TO GO TO MANY NEW USES

NEW YORK, June 5.—The general educational board endowed by John D. Rockefeller which already has expended millions of dollars in gifts to colleges, universities and medical schools and in the promotion of education announced today that it has determined to assist research workers connected with institutions of learning and to support independent investigators and experiments.

SHERIFF IS ACQUITTED ON SHOOTING CHARGE

PAULS VALLEY, OK., June 5.—Sheriff R. R. Hayburn was acquitted by a jury on a charge of shooting with intent to kill Rayburn and George Welch had trouble following the primary election last summer and Welch was shot.

KETCHED, BY GUM

Department of Agriculture Fails to Put One Over on Us Down Here by Calling Chigger 'Leptus'

The gentle chigger is upon us, according to an interesting and illuminating treatise received by the local department of agriculture. True, the government bug experts refer to this well-known little animal as Trombidium, and casually mention the fact that in this locality only the Leptus americanus and the Leptus irritans need be feared, but they can't fool the itching fishermen and pleaders of Oklahoma City with their innocent appearing names. The blood-thirsty chigger is in our midst, and the fatted calf must suffer.

Small boys have long been reporting that traces of the dreaded amphibian have been unearthed, but little credence was given to their stories until a few days ago, when spasmodic and involuntary movements of the hands of several leading business men who had been on a fishing lusty, confirmed the truth of the reports. The sportive little beast has come to life again, and woe to the adventurous ones daring the creek banks and camping grounds.

STATE ELECTION BOARD RUMORS

While Not Heeding Them Republican Committee Nevertheless Meets To Recommend

APPOINTMENT IS PAST DUE

Resolution Appoints Five Republicans Any Of Whom Will Be Acceptable To Geissler

A meeting of the Republican state central committee is being held this afternoon at the Skivvies hotel and several matters of importance are up for consideration. A resolution directing state Chairman Arthur H. Geissler to request Governor Williams to appoint at an early date the Republican members of the state election board was of first importance. The principal reason for calling the committee together at this time was to consider the election board situation.

It has been rumored for some time that certain Democratic politicians have urged Governor Williams that he permit them to act to him who the Republican member of the state election board shall be this morning. The resolution adopted by the state committee does not take notice of these rumors and apparently proceeds upon the theory that when the governor does make his appointment he will name one of the five men whose names appear on the Republican list. However, the resolution alleges that the appointment is several months past due and that the state committee, which this appointment shall be made by and with the advice and consent of the senate. Therefore it is evident that the law contemplates that the form of the Republican member of the state election board shall begin the state election board and the date of the adjournment of the legislature.

The five men whose names were submitted to the governor on January 21 by Chairman Geissler on behalf of the Republican state committee and from which the long-delayed appointment is to be made are T. A. Chandler of Vinita, Roy M. Johnson of Ardmore, Vernon W. Whitting of Pawnee, Frank A. Parkinson of Lawton and A. M. Webb of Wynona.

E. J. Haines of Alta is the present Republican member of the state election board, appointed in July, 1914, by Governor Cruce. Haines was appointed without the endorsement of the Republican committee. At the time of his appointment Joe Morris had just become secretary of the state election board by reason of the new law and Ben Riley, who had long held that place and was a protégé of Governor Cruce, was appointed by the latter as a member of the board.

Haines is a business partner of John B. Doolin and was all right in the position from the Cruce and Riley standpoint. He was not in a position to oppose any more opposed by Riley. The entire arrangement was for the purpose of offsetting anything Morris might do to favor Williams as a candidate for governor.

The state election board is, of course, inactive now, as there is no campaign pending, but many new appointments are to be made soon on county election boards. It is not likely that Governor Williams will leave Haines on the board to assist in filling up the places on the county board.

FAMILY DROWNS NEARGAGE, OKLA

Farmer, Wife and Two Children Die When Flooded Creek Submerges Their Home

KANSAS CITY, June 5.—While smaller streams in Northern and Central Kansas were rising steadily today because of the heavy rains yesterday fears of another serious flood had abated. In Southern Kansas and Northern Oklahoma the streams were receding.

Additional reports of casualties yesterday received here today were that John Hupp, a farmer, his wife and two small children, drowned when the flooded waters of a small creek near Gage, Ok., submerged their home.

In Northern Kansas the situation today was most serious at Beloit, where the Solomon river was reported six feet above flood stage.

The property loss in Kansas from yesterday's wind storms had not been estimated today because of interrupted communication.

FINED FOR TENDENCY

Culprit Insisted That He Was Not Drunk So Court Assessed Reminder That He Throttle Disposition

What must a man do to prove that he is really and truly drunk? This is the question that came up in police court this morning when P. C. Conroy was charged with being boisterous and using indecent language. Conroy said that he had had a few drinks, but that he had not begun to get drunk yet. Judge Miller asked him if he thought that a man was never really intoxicated until he was unable to open his eyes or twitch his fingers, and fined him \$2 and costs for having had a tendency toward a state of intoxication.

CAPITOL BIDS TO BE OPENED MONDAY

Bids for the erection of the new building for the Oklahoma state capitol will be opened Monday afternoon at 2 o'clock in the large banquet room of the Lee-Huckins hotel. Bids for prints, maps and estimates are already in evidence at the capitol hotel. The capitol commission and citizens' advisory council will all have charge of the day. The public is invited to attend.

War at a Glance

German airships again crossed the North sea last night and dropped bombs on the east and southeast coast of England. Little damage has done and apparently the casualties were not numerous.

More British vessels have been sunk by German submarines. Sixteen of the result. The crews of two trawlers were permitted to embark in a third, which was spared by the Germans.

Preparations for a new German assault on the western front are reported to be under way. It is believed in London that following the fall of Przemysl the Germans may undertake a serious offensive movement in France or Belgium. Along the western end of the line north of Arras, reinforcements have been brought up by the Germans and the allies have been driven from some positions gained in the recent fighting.

In Galicia heavy fighting continues all along the front. From the Vienna reports it would appear that the Austro-German armies were still sweeping back the Russians. The Petrograd war office, however, advances claims of success in several engagements and apparently the Russians have been able to maintain their front to the east of Przemysl.

THIRD-ONE IN MURDER CASE?

Usual Crop of Doubters Appears to Question at Whose Hand Miss Alta Norman Met Death

County Attorney Emory will make still further investigation into the tragedy of the first on North Central avenue Wednesday night. There is a growing doubt as to whether George Monje, the young Mexican, killed the girl and himself. A mysterious man about the premises lately may be investigated more fully.

Assistant County Attorney Mitchell who conducted the inquest is doubtful about Monje having fired all the shots. He inclines to the opinion that a third person was in the room. Another revolver of the same caliber or a rifle might have been used, he thinks.

Monje was shot eight times and the girl was shot seven times, said Mitchell. "There was a terrific struggle in the room, but Miss Norman did not take part in it. Her body lay by the telephone, according to the witnesses, her dress unrumpled and her hair in the same condition that it had been earlier in the evening. She did not take part in any struggle. No bloodstains lead to the place where her body lay."

A check for \$27.50 and a \$5 bill lay on the table when Dr. White was in the room a short time before the tragedy, and they have not been found. The greatest mystery is the bloodstained finger prints on the outside knob of the kitchen door. The door was locked by a spring lock which snapped when it was closed from either side.

Some of those who served on the coroner's jury went to the court house today and told the county attorney that they believe a third person killed both Miss Norman and the young Mexican.

THE WEATHER

Washington Forecast

Oklahoma—Unsettled tonight and Sunday probably showers in east portion. Kansas—Partly cloudy tonight and Sunday. Louisiana—Tonight and Sunday generally fair. Arkansas—Unsettled tonight and Sunday probably showers in north portion. East Texas—Tonight and Sunday generally fair. West Texas—Tonight and Sunday generally fair.

Partly cloudy weather tonight and Sunday, not much change in temperature.

The low pressure area covers the Plains states and upper Mississippi valley this morning. It has caused general precipitation in the Rocky mountains. The minus states as far south as northern Texas and in the upper Mississippi valley. The rainfall was heavy to excessive in parts of the Rocky mountains. Weather conditions are shown in the seasonal averages this morning in all sections of the United States.

River Bulletin

As a result of heavy rains in Oklahoma both the North and South Canadian rivers will rise in central and eastern Oklahoma but will not reach flood stage.

CARRANZA REPLY WILL BE SERENE

Report That Mexican Leader's Answer To Wilson Note Is Friendly Cheers Washington

CONSIDERS HIMSELF FAVORED

Chief Believes That If He Takes Mexico City He Will Be Recognized By United States

WASHINGTON, June 4.—Unofficial advice from Vera Cruz today said that General Carranza would reply favorably to President Wilson's statement calling upon the heads of the warring factions in Mexico to restore peace in the southern republic, today cheered administration officials.

General Carranza is the first one of the heads of contending factions to be heard from directly something the president's warning officials have heard indirectly from General Villa through his representatives, that he was favorable to the president's proposal.

General Carranza's reply it was said, was being prepared by Jose U. Yula, constitutionalist foreign minister, and would be delivered to John P. Sullivan, President Wilson's private representative in Mexico by Monday. The reply, the advice said, would be appreciative, friendly and serene in tone. Carranza, it was said, intended to interpret the president's warning as a tacit hint that he was the man best fitted to assume ascendancy in Mexico and most likely to receive recognition by Washington, once the constitutionalists return to Mexico City.

State department officials today recalled full reports from American consular representatives in Mexico on conditions in the southern republics. These reports which had been called for will serve the two-fold purpose of facilitating the work of the American Red Cross in relieving Mexico's hungry population and add the state department in determining its next step in its policy toward the contending military elements.

EL PASO, Tex., June 5.—In messages received here Miguel Daza Lumbardo, minister of foreign relations in the Villa government cabinet announced he would leave Chihuahua today aboard a special train to convey President Wilson's Mexican message to General Villa. He will be accompanied by George C. Carothers, special agent of the state department, to northern Mexico.

The party will go directly to Leon, Guanajuato, from where they will hope to arrange a meeting with General Villa, who is with his troops south of Trinidad, Guanajuato.

WASHINGTON, June 5.—Warnings issued to Villa commanders, Trujillo and Urbalejo by Colonel C. M. O'Connor that an attack on Agua Prieta would endanger American lives and property on this side of the boundary line have been followed by a heavy increase in the United States border patrol. Additional troops of the Ninth cavalry took up stations today east and west of there.

It is reported that forces under General Trujillo, Urbalejo and Sosa gradually are closing in to invest Agua Prieta. The Carranza garrison is strengthening fortifications. They feel secure from attack, however, they say, because of the presence of four thousand United States soldiers there.

LABOR AROUSED OVER SCHOOLS

Union Mass Meeting Is Called at Met Tomorrow Morning For the purpose of Defending Weldon and Others

A mass meeting of organized labor has been called at the Metropolitan theater at 9 o'clock tomorrow morning to protest against the changes that are proposed by the city board of education. The meeting will be addressed by labor leaders and by J. O. Weldon, head of the high school mathematical department, who is also the representative of the teachers' organization in the Central Labor Council and will be one of the speakers.

This meeting is a result of the recommendations to be made at the meeting of the board of education tonight by the teachers' and salaries committee. The committee is said to be about to recommend the employment of W. A. Bailey of Leavenworth as principal of the high school to succeed J. G. Masters, who will be displaced if the recommendations are carried out. It is also proposed by the teachers' committee to get out Weldon and fill his place by the appointment of Prof. Erlman, now principal of the Ardmore high school.

The recommendations will not be acted upon at the meeting of the school board tonight. Efforts are being made today to have them put over until another meeting. Before that time the mass meeting of the labor organizations will have been held and the protests will be placed before the board.

The recommendations of the committee are regarded as a blow at organized labor, at least as far as Weldon is concerned. He has been active in his affiliation with labor organizations. Back of it is said to be the old fight that has been going on for months in the schools, with Principal Masters on one side and Superintendent Buchanan on the other. The recommendation of the teachers' committee, up to this point, is regarded as a Buchanan victory.

AMERICANS WARNED

Residents in London Receive Anonymous Telephone Calls Telling Them to Stay Indoors at Night

LONDON, June 5.—Several American residents of London today informed Robert F. Skinner, the American consul general here, that last night they received anonymous telephone calls warning them to get out of bed and don't go to their bedrooms at once.

Among those thus notified was M. K. Shaver, a member of the American Belgian relief commission, who was told by an unknown voice over the phone not to stir from his home during the night and furthermore to fix the bath tub in his bedroom in water.

For several days reports have been in circulation in London that all American women here had been warned to leave England by June 5. According to this report the American embassy had been requested by Berlin to issue a warning of this nature. Investigation has brought the information that the ambassadors had received no such request.

FILL BASEMENT WITH THE DEAD

French Discover Germany Losses Were Heavy in Sugar Refinery Battle; Changes Hands Often

PARIS, June 5.—The capture by the French of the sugar refinery near Souchez is described in a report given out today by the official eyewitness at the front. This is what it says:

"Violent French attacks from both the west and the south were resisted for some time but finally the Germans were demoralized by the artillery fire of the French and withdrew. The investment of the factory was found to be filled with German dead. The French losses were slight."

Furious at having lost a position which would serve as a base for counter attacks on Abbeville, the Germans made a desperate attack at midnight and the French were obliged to withdraw but a watchful French major prepared rapidly for a counter attack.

"When the French counter attack had attained the refinery itself it was found that the Germans already had withdrawn and the position was promptly organized by the French."

"During this work a non-commissioned officer remained for eight hours at his post directing his men, and this in spite of the fact that he had a splinter of a shell in his thigh. In a period of three weeks nearly 3,000 Germans have been buried and more than 3,000 have been taken prisoners by the same French regiment."

CONSOLIDATION ALREADY PAYS

The Budget for 1915 for Department of Public Affairs Is \$6,370 Less Than Last Year

The budget for the 1915 year for the department of public affairs is estimated at \$90,370, according to the figures which have been compiled in the mayor's office. This amount will be asked for when the budget is placed in the hands of the city auditor Monday. The budget will cover the expenses of the municipal public departments for one year beginning July 1. Last year the budget amounted to \$96,740.

The principal saving for the ensuing year will be made by consolidation, the primary expense of the different departments being about the same. The separate department now being maintained for the bureau of identification will hereafter be handled in the regular police department, the registration work being done as part of the regular police duties. Last year this department cost the city \$1,440. The budget calls for \$300 for its maintenance this year. The principal other consolidation will consist of the joining of the game and sergeant's alarm systems. Heretofore the systems had been kept separate, the game ward, where all fire and patrolmen have been received being on the third floor of the police station, and the reports to the desk sergeants being made on a different floor on the main floor. The joining of these systems means that four men will take the place of seven.

The estimate for the police department for the ensuing year is \$75,577, an actual \$25,075 last year. Most of the mechanical equipment which was bought for the police department last year accounts for the difference in the expense accounts. It is expected that the budget will be granted as it stands.

WILLS MUST SERVE

Noble County Man Denied Habeas Corpus; Other Decisions Handed Down by Criminal Court of Appeals

The criminal court of appeals today denied a writ of habeas corpus to George Wills, convicted in Noble county on an assault charge and given thirty days to jail and a \$50 fine. The court orders that he be remanded to the custody of the sheriff.

Other opinions by the court are: By Justice Doyle: Jack Gormaney, convicted in the Cherokee county district court of an assault with intent to kill and given two years in the penitentiary, affirmed; Bob Hinch, convicted in the Choctaw county court of violating the prohibitory law, fined \$250 and given 90 days in jail, affirmed; Shelby Kilgrew, convicted in the Cherokee county court of violating the prohibitory law, given 30 days in jail and fine of \$50, appeal dismissed; C. W. Rollins and John White, of the town of Teton, convicted of violating the anti-gambling ordinance and fined \$10 each, appeal dismissed.

DEMAND LIMITS OIL PRODUCTION

Thus Decrees The Corporation Commission In Its Head-Down Order

TO PRO-RATE POTENTIAL YIELD

Finding Stands As First Application Of The Law To Prevent Waste

"No person, firm or corporation having the right to drill for oil shall take from the potential production of the Healdton field more than his fair and equitable proportion, and equitable rules and regulations may be employed by the corporation commission to ascertain the potential production of the field, which is held in the first order produced by the commission under the new conservation law, and based today. The order becomes effective on and after publication."

The order is made after a series of hearings on complaints from the Healdton field to the effect that oil was being produced not ratably nor equitably according to former rules that had been adopted among the oil men. The commission conducted hearings in the Healdton field and also in its offices here, and endeavored to ascertain all the facts in connection with the production of oil in the Healdton field.

The order issued is, therefore, of no little importance and interest to oil men and the oil industry in general, as Oklahoma is the first state in the oil section to pass a law for the protection against waste of crude oil, and the corporation commission is the first to promulgate an order to act under the law.

The finding of the commission is that the potential production of the Healdton field is 70,000 barrels a day and the total pipe line facilities of that field are about 21,000 barrels a day. The complaint was that more oil was being raised to the surface than could well be disposed of on account of pipe line facilities.

The order specifies "that the daily actual production of the oil field shall be restricted and confined to such quantity as is necessary to supply the probable daily market demand," with the exception that "the raising of the oil from the sand or the production from the common source of supply shall be done by the operators only to the extent of the amount necessary to meet the ascertained daily market demands and under the conditions set forth in the rules and regulations of the commission."

In order to ascertain the potential production of the field for the purpose of establishing a basis for the fair and equitable taking of oil from the common source, the commission orders that A. L. Walker, heretofore appointed as agent for the commission, or his successor, to make a gauge of each oil well in the Healdton field.

After having obtained the potential production of the field, the owner or operator of a well shall be restricted in raising oil from the underground to the surface to the following extent: "that is to say, the agent of the commission in said field shall in accordance with these rules ascertain the ratio of the daily market demand to the potential production and then the actual production shall be limited to the market demand, and in supplying the market demand the operators shall be permitted to produce ratably, that is to say, only such a per cent of the possible production of each well as is necessary to make up upon the whole the daily market demand."

"In order to guard against unforeseen casualties and contingencies and to the extent that the market may not at any time be deprived of an adequate supply, the use of wooden or steel storage (which is permitted under certain restrictions) is hereby authorized for the storage of the whole or potential production of any well or number of wells on one lease or property for a period of ten days, but in running the oil so produced, it shall be run according to the fair and equitable proportion of the operator according to the plan hereby established, or in other words, if an operator chooses to accumulate his whole possible production for a period of ten days, then upon the sale of the same he shall be wholly precluded and prohibited from raising any other oil from the sand to the surface until he is due another run upon the pro rata basis."

"The commission in avoidance of any controversy pertinent to the legal status of the common carrier and common purchaser rules applies the rules both directly and indirectly, to the production of oil and not to the marketing of the same, or rather to the raising of the oil from the sands to the surface, and hereby authorizes as aforesaid to prohibit the raising of oil from the sands to the surface except such can be marketed under these rules and regulations."

"The storage of oil by any common purchaser or purchaser bought ratably in open market bona fide to be held as stock under the usual custom of the trade for the purpose of refining or for sale to the customer is not prohibited by the rules hereinbefore prescribed."

"The storage of oil by any common purchaser or purchaser bought ratably in open market bona fide to be held as stock under the usual custom of the trade for the purpose of refining or for sale to the customer is not prohibited by the rules hereinbefore prescribed."

"The storage of oil by any common purchaser or purchaser bought ratably in open market bona fide to be held as stock under the usual custom of the trade for the purpose of refining or for sale to the customer is not prohibited by the rules hereinbefore prescribed."

"The storage of oil by any common purchaser or purchaser bought ratably in open market bona fide to be held as stock under the usual custom of the trade for the purpose of refining or for sale to the customer is not prohibited by the rules hereinbefore prescribed."

"The storage of oil by any common purchaser or purchaser bought ratably in open market bona fide to be held as stock under the usual custom of the trade for the purpose of refining or for sale to the customer is not prohibited by the rules hereinbefore prescribed."
